

## Fwd: Lawsuit update

We made a decision yesterday to withdraw our lawsuit against the Mayor and City Council. The listed plaintiffs of Joe and Jodi Grundhoefer, and Todd and Linda Zehnder, collectively determined that continuing the suit exposed us to excessive financial peril.

The City's attorneys were asking the court to require us to post a \$630,000 Surety Bond to protect the City and the contractor from financial losses. They also threatened to seek \$200,000 of losses they would incur if they had to restructure the bonds due to this suit. Although we firmly believe that the City acted improperly in rejecting our petition, the risk of continuing was too perilous.

Thanks to all of you who contributed financially to the legal expenses and also for everyone's time and effort. As I said in the statement David Ludescher read on KYMN yesterday morning, this has been a textbook example of "You Can't Fight City Hall". I know you all agree that we need a major overhaul of the City leadership in 2024. Thanks again.

Todd Zehnder
